

OPTIMUM HEALTH AND BALANCE AWAITS

Laminine helps support health benefits throughout the body.

Sleep and Skin Improvement*

- Promotes more restful sleep*
- Moderates the stress response*
- Builds collagen for healthier skin*
- Reduces signs of normal aging*

Energy and Physical Strength*

- Improves stamina and energy*
- Enjoy faster post workout recovery*
- Enhances muscle tone and strength*
- Increases libido/sexual desire*

Stress & Strain Relief*

- Maintains healthy cortisol levels*
- Regulates serotonin levels*
- Reduces signs of mental stress*
- Supports emotional balance*

Mental & Emotional Boost*

- Stimulates natural DHEA production*
- Aids in brain function and activity*
- Improves focus*
- Enhances overall sense of well-being*

WORKING TOGETHER

The LifePharm® health mission started with Laminine, a proprietary, original formula that has remarkable effects on those who take it. This is why we continue to build on the foundation set by Laminine by expanding our product line with supplements that work hand in hand toward the goal of achieving healthy living*.

TO **UNCOVER IT?**

PERFECT HEALTH UNCOVERED

THE ORIGIN

Over 80 years ago, Canadian doctor John R. Davidson made a remarkable discovery while studying the embryonic development of chickens.

He noticed consistently that the compounds in the fertilized eggs were making the journey toward healthy development inevitable.

Davidson isolated the compound, began injecting it into the tumors of his patients and started seeing noticeable positive results.

When Dr. Davidson died, the research seemingly died with him, until almost 50 years later and thousands of miles away, renowned Norwegian doctor and researcher Dr. Bjoedne Eskeland stumbled on the same discovery.

He revived the research and isolated the compound from the fertilized avian egg embryo, which later became the foundation of the proprietary formula of Laminine®.

THE FORMULA

Have you ever wondered how a child physically develops at a dramatic rate, or how a young person can exert so much energy and recover almost instantly? How about the way a child is able to pick up new languages so quickly and remember even the slightest things?

The answer lies in a compound that is essential in supporting embryonic development called Fibroblast Growth Factor.

Fibroblast Growth Factor (FGF)

- Improves neuron functions in the brain
- Increases amino acids and peptides in cells
- Assigns the proper stem cells to restore the body's organs back to their natural state

While FGF is readily available in the human placenta, its availability diminishes over time and essentially vanishes as we age.

The formula in Laminine is a unique source of FGF for adults.

LAMININE IS A PROPRIETARY COMBINATION OF:

Fertilized Avian Egg Extract, Marine Proteins, and Phyto Proteins that together provide the body with the full chain of 22 amino acids essential for cellular health*.

When in the body, this amino acid chain acts as a natural “adaptogen,” reprogramming adult stem cells to travel and repair areas of the body and mind that are most in need*.

THE SYMBOL OF LIFE & RENEWAL

One of the most amazing discoveries about Laminine® that further separates it from any other supplement on the market today is its incredible impact on the body's cortisol levels.

Approximately 7 in 10 Americans report that they experience either physical or non-physical symptoms of stress.

By lowering cortisol levels in our bodies, we have the ability to reduce how stress damages our health.

High levels of cortisol accelerate the aging process - and in a recent study, we discovered a 23% reduction of cortisol levels in individuals after 12 days of taking Laminine*.
